SMOKE SIGNAL

1967

DOUGLASS SCHOOL
DOUGLASS, TEXAS

A BOOK OF PEOPLE AND EVENTS . . .

Through these halls have passed the students of the school year 1966-1967. The halls may seem lifeless but there still rings the laughter and clamor of lockers. Many memories, some of happiness and excitement, others of disappointments and sorrow, will live forever in these students' hearts, and the school years to come will not erase but add to these memories.

JUST FOR FUN

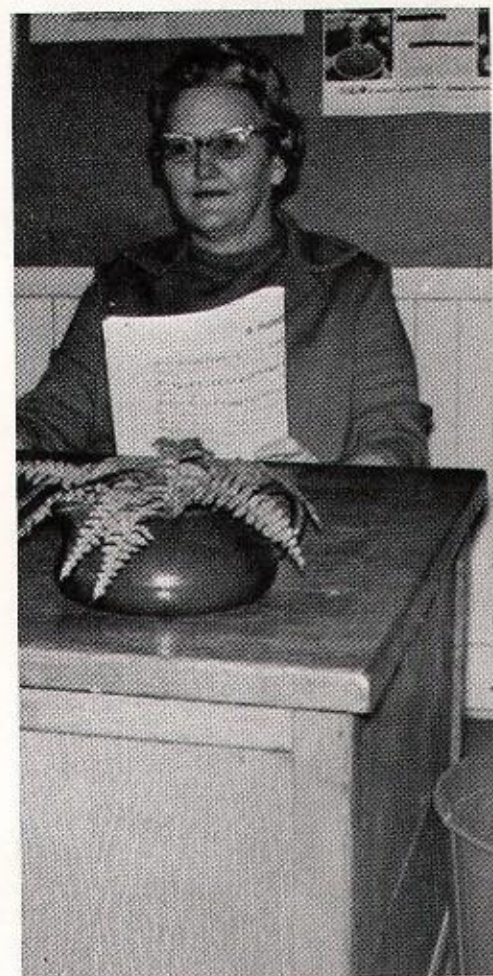

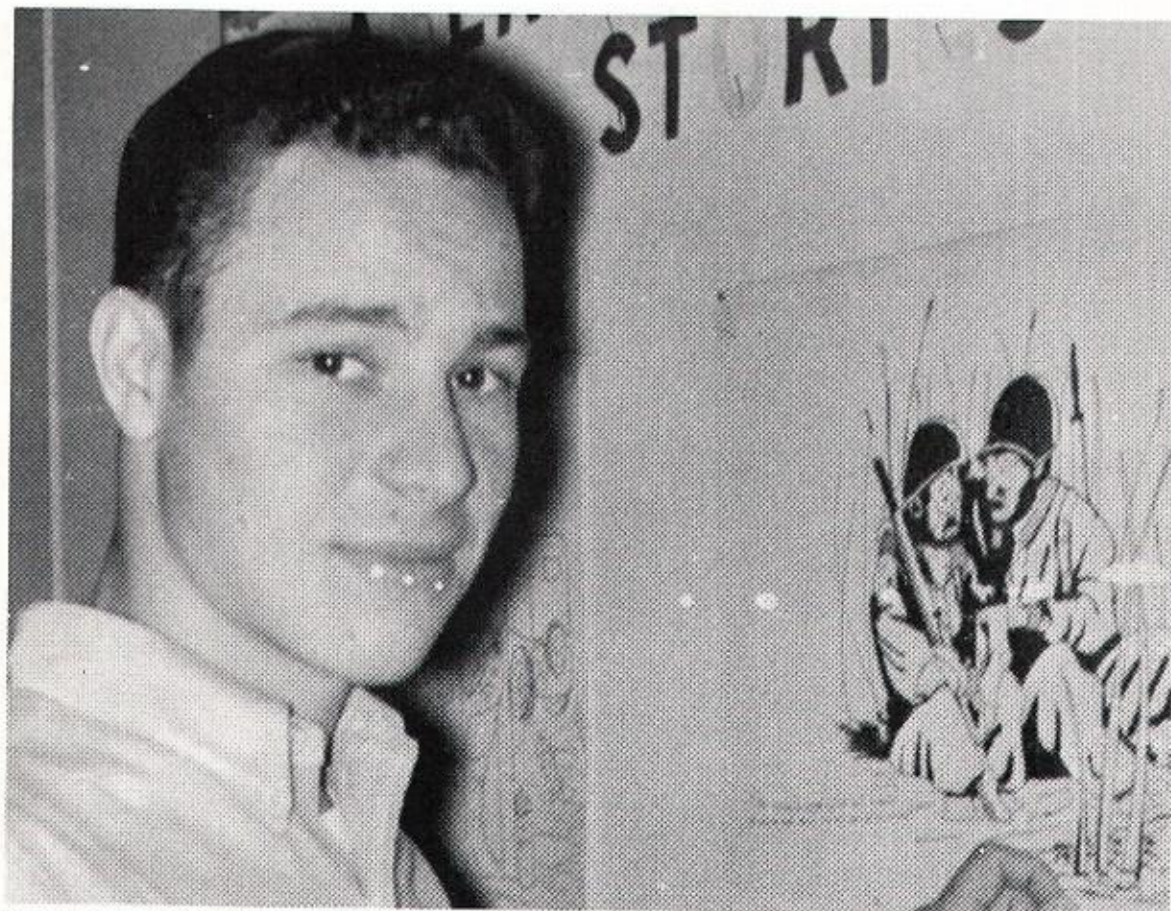

DEDICATION

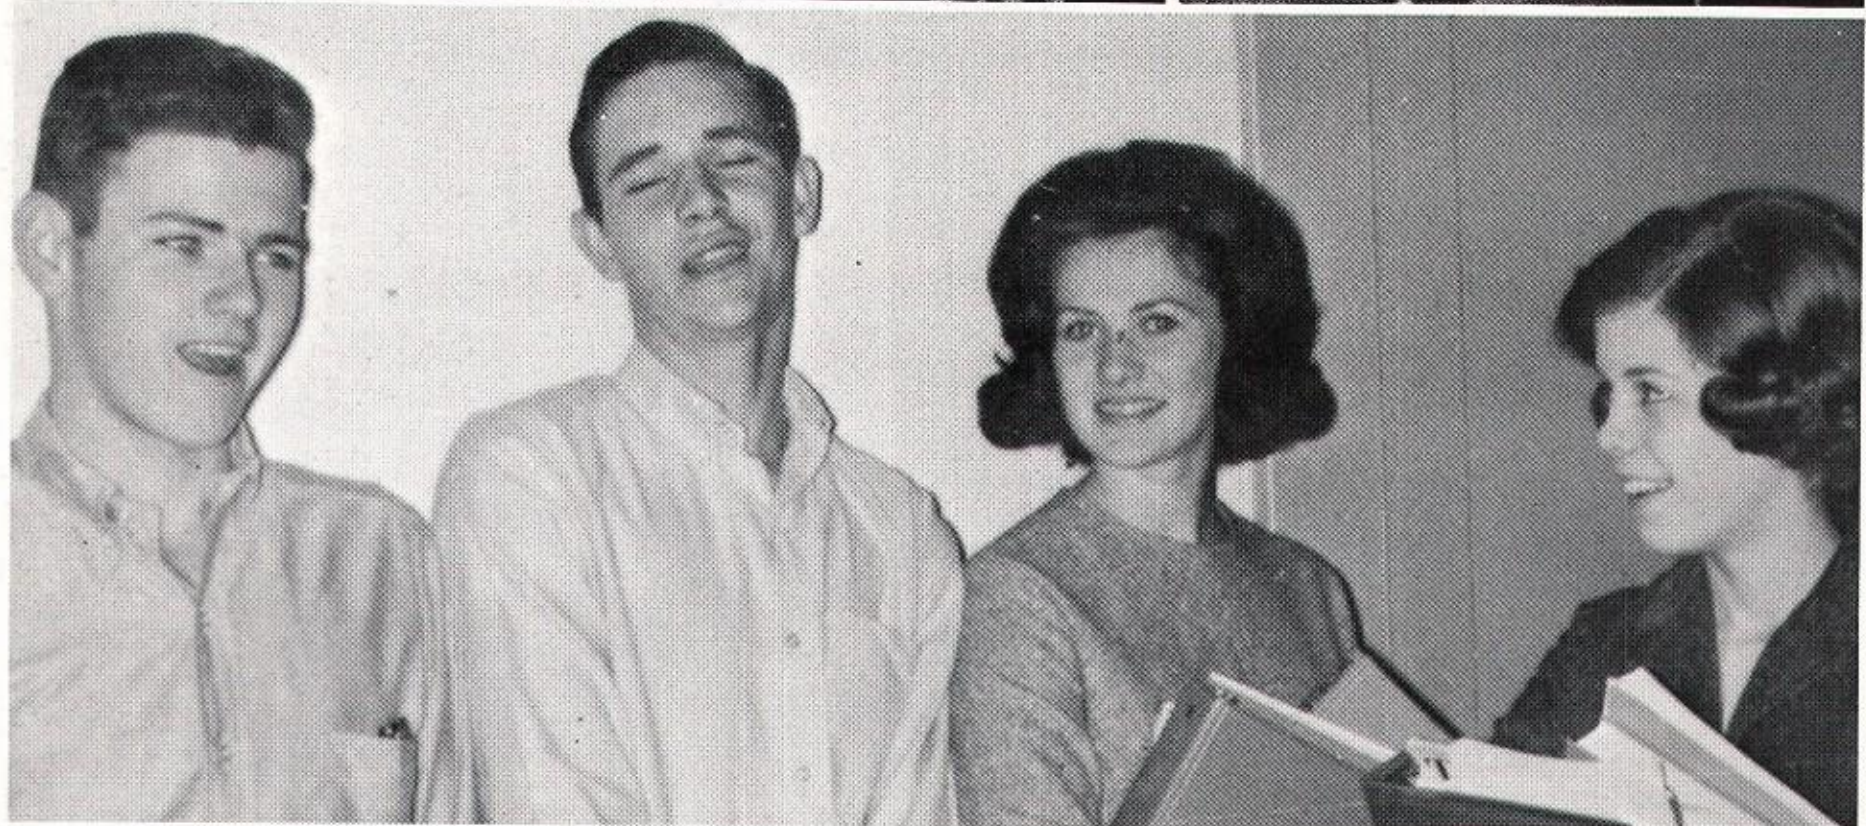

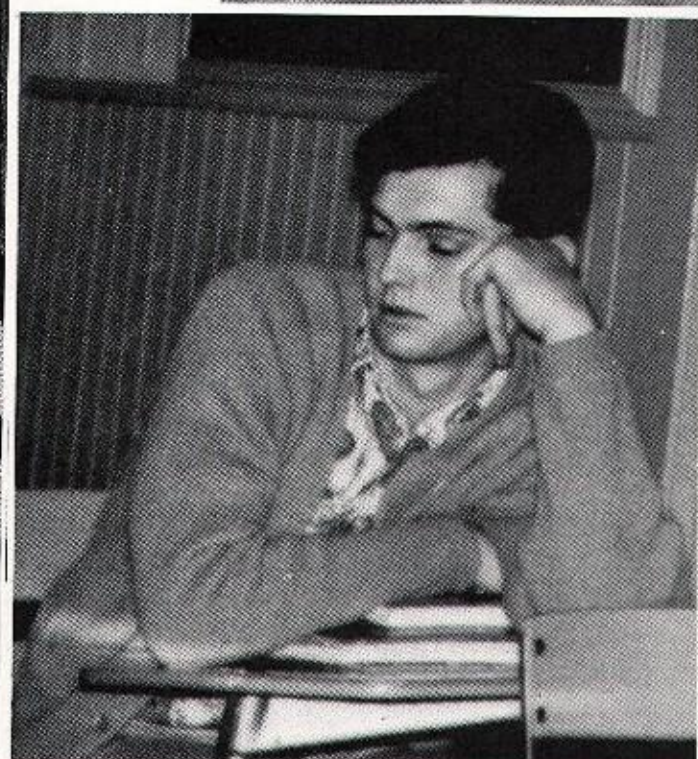

This issue of the Smoke Signal is affectionately dedicated to Mrs. Helen Alders in appreciation for her years of faithful teaching, her attitude of helpfulness, and her spirit of co-operation. It is our way of saying, "we thank you."

ADMINISTRATION AND FACULTY

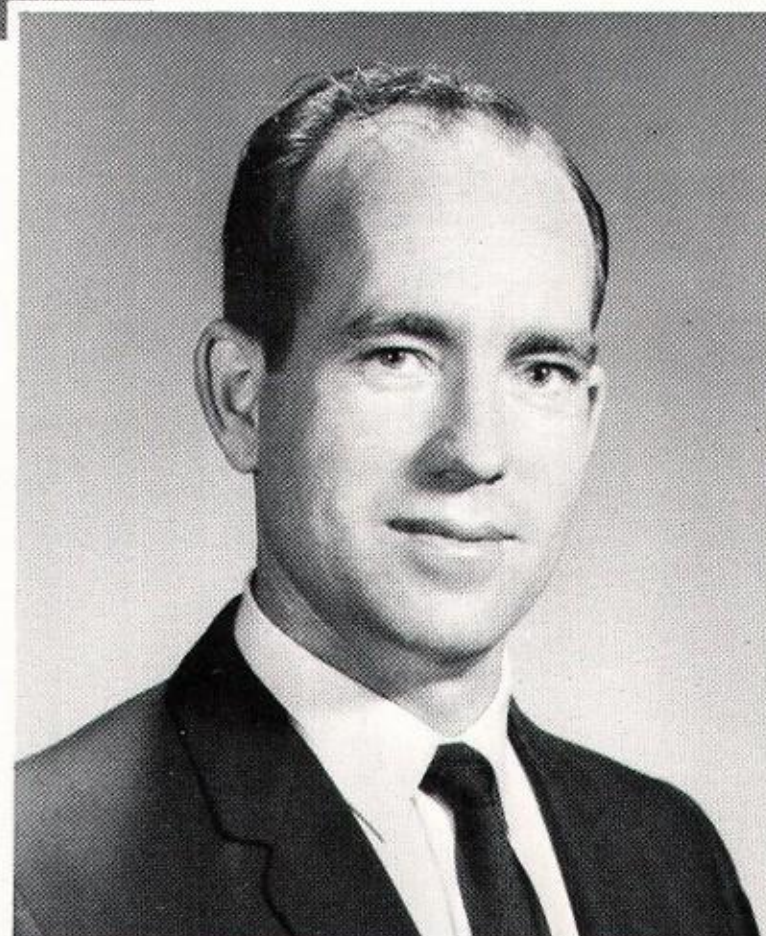

SUPERINTENDENT

MELVIN C. HOLLAND

The most important asset in our school is the individual student. All of our efforts, time devotion and love goes out to you, the students of Douglass School.

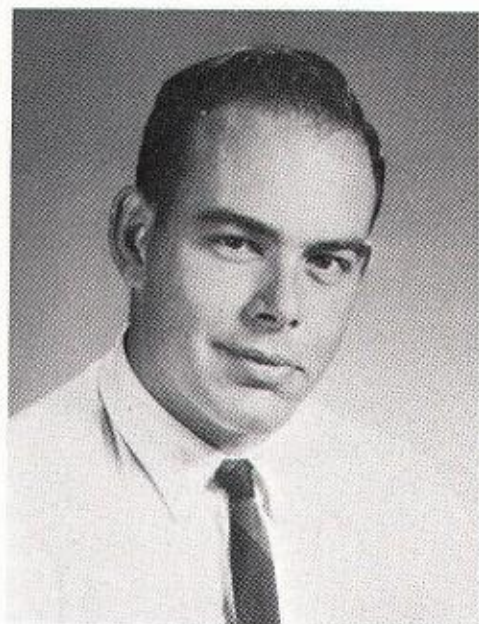

We have a good school because of the splendid cooperation of the students, parents, faculty, friends, and the Board of Trustees...Any school will be the reflection of the persons who live in the community. I am proud to say that we have people who take pride in their children's future.

MRS. SANDRA LOWERY
Secretary-Teacher's Aide

Much time has been spent in the preparation of this excellent yearbook. Thank you, the Annual Staff and the Sponsor, for this 1966-67 Douglass School Yearbook. I am sure many happy experiences will come from the hard work that has been put into this book.

The Student Council has just been organized this year. They have written a Constitution and a Code of Behavior which we can proudly say the students accepted. Their main purpose is to promote good study habits and encourage school activities and school spirit. They have done their job well.

Editor Porter

This edition of the Smoke Signal is the result of an effort to capture part of the activities of the 1966-1967 school year at Douglass School. Putting it together has been hard work but also a lot of fun. It is the hope of the staff that it holds something of pleasure for you.

HOMework IS A LIGHT SUBJECT!

Adequate, properly positioned lighting can make school homework easier and more effective... a big step toward better grades for almost any student.

Check the room or rooms used for study in your home for these common lighting faults:

GLARE—irritating, direct light from unshaded bulbs or improperly placed lighting sources.

CONTRAST—too great difference between light and dark areas in the room.

SHADOWS—cast from poorly placed lamps and fixtures.

NOT ENOUGH LIGHT—because of too few lamps... because the bulbs are too small... because room colors are too dark.

Dealers or TP&L Home Service Advisors will be glad to counsel with you on good study lighting.
